

# PLANTING & SEEDING

## SERVICEGARD

### Air Seeders..... \$925<sup>†</sup>

**Includes:**

- On-farm inspection of air cart and tool within 50 km of store
- Lube chains
- Inspection of air tank, lids and seals
- Inspection and service of metering rollers (up to 3) and housing
- Inspection of auger, conveyor and fan
- Inspection of seeding tool, hoses and towers
- 1 can of spray lubricant, 1 can of electrical contact cleaner and 4 tubes of multi-purpose grease
- 1 year parts and labor warranty\* on all work completed

### Planters..... \$56<sup>†</sup> PER ROW

**Includes:**

- |   |                                      |
|---|--------------------------------------|
| • Inspect hoppers, meters and seed tubs   | • Inspect meter drive system         |
| • Inspect opener and gauge wheel assembly | • Inspect monitor and wiring harness |
| • Inspect hydraulic system                | • Lube chains and grease unit        |
|   | • Includes meter verification        |

Air seeder unit should be connected to a tractor so proper inspection can be completed. Monitor and electrical should be connected so we can test electrical and hydraulic functions, clutches, meters and more. Additional charges may apply for tanks not being clean, seized meter components, half-width disconnects, auger or conveyor components. Additional travel may apply if additional trips are required to complete all repairs or tower upgrades.

## OPTIMIZEPRO

### Air Cart..... \$679<sup>†</sup>

- Walk around with customer to show key service points
- Verify correct hydraulic hookup
- Systems setup & review: includes hose configuration, agitator speed, tire size and meter rollers configuration
- Check for updates on cart controller
- Setup air cart in display
- Operator training (1); includes manual review
- Safety
- In-field optimization is available; additional charges may apply

### Air Drill..... \$999<sup>†</sup> (1830/1835) \$1499<sup>†</sup> (1890/1895)

- Walk around with customer to show key service points
- Verify correct hydraulic hookup
- Systems setup & review: includes tractor hookup, hose configuration, sensor setup in
- Monitor, hydraulic pressures, closing wheel down pressure, press wheel down pressure and tire pressures
- Check & level implement
- Check & adjust seeding depth
- Operator training (1); includes manual review
- Safety

### Planter..... \$749<sup>†</sup>

- Walk around with customer to show key service points
- Verify correct hydraulic hookup
- Review safe operating with customer
- Explain folding & unfolding
- 2630 setup & review: includes home page, alarms, vacuum fans, seed size
- Check planter level
- Operator training (1); includes manual review
- Safety

\*Prices are suggested retail prices only and are subject to change without notice at any time. Dealer may sell for less. Taxes, setup, delivery, freight and preparation charges are not included. See dealer for details. \*1 year starts at first use. Only available on units receiving a ServiceGard certified decal. All units are to be in proper running condition prior to OptimizePro. A pre-season inspection to identify possible issues or repairs is recommended.
